Expert Range: Folding Doors

Autumn UK folding doors have been the industry benchmark for over 26 years. We proudly source and manufacture our products within the UK and use the finest 6063 grade aluminium to deliver outstanding performance. We also use PETG given its shatterproof qualities to deliver optimum safety for the user.

Our folding doors are feature laden for your benefit.

360 degree full length interlocking meshing seals allow the doors to be folded in any direction

Three stage seal ensures a compression fit to optimise performance

Door marking jig with built in spirit levels: facilitates optimum drilling and alignment points for perfect installation

Patented cove profiles to ensure best fit

Bespoke, comprehensive fitting kit containing all components

Transit clip to reduce risk of damage during carriage

An Autumn UK fitting kit is supplied, free of charge, with every door set.

Option 7

1 x fixed half-height panel and floor to ceiling pole @ 400mm with 1 x set of sliding doors closing on to a half-height end panel and floor to ceiling pole.

Expert Range:

Advantage Door Option

Occasionally clients may experience difficulties opening traditional shower doors. Autumn's Advantage option is a free add-on to folding and sliding doors, which eradicates door seal maintenance and ensures they are easy to open.

The benefits

Advantage doors incorporate a unique air assisted hinge, operated by a small lever that lifts the door clear of the floor. This provides a smooth operation and prolongs the life of the seal. Once closed, a gentle push down secures the door in position and provides an effective seal.

For the Advantage option please state when placing your order.

How to operate an Advantage door

1

Push the lever to release the Advantage door.

2

The door lifts 20mm off the floor to allow it to swing away.

3

To reset the door, push down as indicated.

Portable Easi-Screens

2 panel Easi-Screen

3 panel Easi-Screen

Easi-Screens are constructed with the same attention to detail as the wider door range and are 750mm high.

They have the same high quality construction and safety features with the added benefit of being portable, ideal when you need to move them in and out of the showering area.

Available in two panel and three panel configurations. There are 2 size options to choose from.

Sizes

2 Panels

Size: 750mm x 750mm

3 Panels

Size: 500 mm x 500mm x 500mm

Floor Formers

Floor formers supplied by Autumn UK feature a rotating 360 degrees drain plate to help avoid underfloor obstructions. Manufactured using glass content SMC, the former is able to withstand up to 300kg (47 stone) without the need for under boarding. The eccentric drain also features three locating rings to provide enhanced engagement between the former and the rotating drain plate.

The former is consistently of 22mm depth around the perimeter and can be trimmed anywhere up to the solid surround with a standard handsaw and can be fitted on wood and concrete floors.

Sizes available

900mm x 900mm

1000mm x 1000mm

1200mm x 750mm

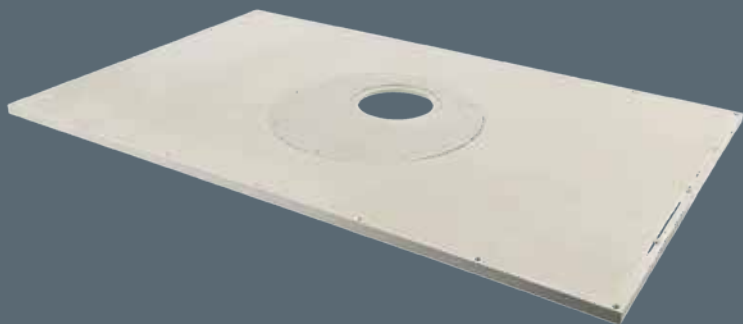

1300mm x 800mm

1400mm x 900mm

1200mm x 1200mm

1750mm x 750mm

1850mm x 900mm

Shower Trays

All shower trays supplied by Autumn UK are tested to **DIM 51097:1992**. Their features

- ✓ 35mm high and fully supported
- ✓ CNC machined MDF core to maintain size and consistency
- ✓ 50mm perimeter laid to a minimum 1mm fall to encourage water to flow to the drainage zone
- ✓ Can support weight of 250KG
- ✓ Available in both left-hand and right-hand configurations
- ✓ Supplied with flexible self-adhesive tiling upstand

Sizes available

900mm x 900mm

1000mm x 1000mm

1200mm x 750mm

1300mm x 800mm

Pumps

Hydro Logic HL3000 removes waste water where no connection to the soil stack is possible or where no gravity fall is available.

The Hydro Logic HL3000 is manufactured by Autumn UK in the UK and automatically activates when the shower is used. It has an LED display and diagnostic system.

Our range

Quiescent

- Designed for where noise reduction is required
- Operates by adjusting the speed of the pump to match water flow rate
- Available for left and right hand water feed

Dual

- Pumps water at one of two pre-set speeds
- Available for left and right hand water feed

Compact

- Conveniently designed to fit in the smallest of spaces
- Separate transformer for flexible installation
- Available for left and right hand water feed
